ANNUAL REPORT 2019

Cairn Oil and Gas, a vertical of Vedanta Limited is one of the largest exploration and production companies in India, contributing ~25 percent of India's domestic crude oil production. The company is committed to conduct all its business activities in a socially responsible, ethical and environmentally friendly manner while continuously working towards improving the Human Development Index (HDI) of people in its operational areas in Rajasthan, Gujarat, and Andhra Pradesh. We are committed to empowering the local communities in our areas of operation and support their sustainable as well as inclusive growth.

We conduct Corporate Social Responsibility (CSR) programs with the objective of improvement in the socio-economic status of the local community in our operational areas. We believe in the importance of strong stakeholder relationships to strengthen CSR efforts in the community. This is achieved through a two pronged approach that includes partnership with the Government and community ownership. Working closely with stakeholders is of paramount importance to the company.

PRESIDENT MESSAGE

MADHAVI JHA
PRESIDENT

I would like this opportunity to thank you for your steadfast support in helping transform the lives of the communities we operate among in Rajasthan, Gujarat, and Andhra Pradesh.

At Cairn Foundation, we have witnessed countless stories of hope and positive change over the past decade. The scale and depth of our impact on local communities would not have been possible without your invaluable support. As our partners, you have helped us touch more than 10 lakh community members this year alone across these three states. Your dedication has not only helped people economically and socially, but has also created better living standards for them to continue to prosper in.

We have stories like that of Peeli Devi, an Anganwadi Karyakarta in Barmer, receiving state-level recognition through our Nand Ghar programme; Babu Lal, a beneficiary of our agriculture project having left a menial job to restart farming activities, Vishnu Ram, a local youth who journeyed from being trainee to trainer through our skill development centre in Jodhpur, or of someone differently-abled becoming an earning member of a family in Andhra Pradesh.

Stories like these reinforce our faith that together, we can create better lives for those at the bottom of the pyramid. We are grateful to you for being the very backbone of all our efforts.

Thank you for standing by us.

Madhavi Jha

President,
Cairn Foundation

Cairn Foundation, a registered not-for-profit society under the Haryana Registration & Regulation of Societies Act, 2012 serves as the governing body that executes the community development initiatives of Cairn Oil & Gas. These programmes cover various thematic areas including child well-being and education, agriculture & animal husbandry, women empowerment, healthcare, provision of drinking water & sanitation facilities, community infrastructure development, skill development and sports etc. In the last year, 10.5 lakhs people have been affected in over ~554 villages in Rajasthan, Gujarat and Andhra Pradesh across our programs.

CAIRN FOUNDATION

VISION AND MISSION

VISION

An environment where communities are empowered and not live in “Culture of Silence” and ‘Vicious Circle of Poverty’.

MISSION

Implement sustainable programs that improve and empower communities who then can create opportunities for themselves and others.

THEMATIC INTERVENTIONS

DRINKING WATER

Water is one of the most basic of needs for every human being and, we at Cairn, ensure that members of our community have access to clean and safe drinking water.

PROJECT HIGHLIGHTS

- Jeevan Amrit Project in Rajasthan, Gujarat and Andhra Pradesh
- 114 RO plants installed and commissioned in Barmer, 10 RO plants in Gujarat and two RO plants in Andhra Pradesh
- ~15,000 registered members across 166 villages in Barmer, Rajasthan
- ~1300 registered members across 14 villages in Gujarat
- ~1200 households in one village in Andhra Pradesh.
- Community run RO plants under PPP model
- Partners Agencies: TATA Projects, Waterlife, Fontus (Earth Water) and Public Health Engineering Department (PHED)

JEEVAN AMRIT PROJECT IN RAJASTHAN, GUJARAT AND ANDHRA PRADESH

Our Jeevan Amrit Project is working to address the shortage of safe drinking water and aims to provide access to treated water to communities. The project is also inspired by the efforts of Former President of India, Dr. A.P.J. Abdul Kalam to provide urban amenities in rural areas including safe and potable drinking water.

114 RO plants have been established across Barmer district, Rajasthan as of September 2018 in partnership with the Public Health Engineering Department (PHED), Government of Rajasthan and 10 RO plants have been sent up benefitting community members across 14 villages in Gujarat. These 10 plants are currently under community ownership.

Once installed, the plant is operated and managed by the local community, with an operator who is appointed from within the village. Through this initiative, we are trying to create local employment in the form of direct methods (operators) as well as

indirect methods (those employed in water distribution).

A number of innovative 'water ATMs', running on solar power, have also been established to ensure that the community can access safe drinking water at their convenience, while 'Jal Rath's' reach people located far from the plant locations. These interventions have helped in providing safe drinking water to rural communities at their doorstep. The project aims to serve ~1.1 million villagers and address issues related to high Total Dissolved Solute (TDS), fluoride and nitrate content in water that may result in health conditions such as fluorosis and blue baby syndrome.

BOREWELL PROJECT IN RAJASTHAN

Besides installing RO plants, ten bore wells have been constructed in water constraint areas under the project "Access to Water for All" in collaboration with PHED. These bore wells cover ten gram-panchayats serving over 10,000 population.

SANITATION

We undertake large scale initiatives under this program to support the National Sanitation Mission, to accelerate the efforts to achieve universal sanitation coverage.

PROJECT HIGHLIGHTS

- Constructed ~20,500 household toilets, including 4,000 toilets with bathrooms and 188 School toilets across Barmer District.
- Supported Government's effort to create the first Open Defecation Free (ODF) blocks in Barmer District, Gida and Baytu blocks. Entire Barmer district was declared ODF in June 2018 by Government of Rajasthan.
- 'Total Sanitation Campaign', a school sanitation intervention was undertaken in 27 schools in Barmer impacting ~7000 students, with the aim to provide basic health and sanitation facilities in schools.
- Partner Agency – PHED, Government of Rajasthan, Rural Development Organization

(RDO) and YUVA Unstoppable.

SWACHCH BHARAT ABHIYAAN IN RAJASTHAN

We have facilitated construction of ~20,500 household toilets, including ~4000 toilets with attached bathrooms under Nirmal Bharat Abhiyan and 188 school toilets across Barmer District in partnership with the local government agencies. In addition, ~700 women, trained as masons at Cairn Enterprise Centre, helped in the construction of these toilets.

SWASTHYA VIDYALAYA TOTAL SANITATION CAMPAIGN IN RAJASTHAN

The main objectives of the Total Sanitation Campaign are as under:

- Improve general quality of life in the rural areas.
- Accelerate sanitation coverage in rural areas.
- Generate demand for sanitation facilities through awareness creation and health education.
- Cover schools/ Anganwadi's in rural areas with sanitation facilities

and promote hygiene education and sanitary habits among students.

- Encourage cost effective and appropriate technologies in sanitation.
- Eliminate open defecation to minimize risk of contamination of drinking water sources and food.
- Convert dry latrines to pour flush latrines, and eliminate manual scavenging practice, wherever in existence in rural areas.

The Total Sanitation Campaign' was undertaken in 27 schools of Barmer district impacting ~7000 students. This included both infrastructural upgrade (construction of toilets, wash basin, shed for mid-day meal, hand washing area etc.) as well as behavioral change through education. Regular training and awareness sessions are conducted for school staff as well as students on value based modules, menstrual hygiene, hand washing, formation of sanitation and water groups, hand holding for monitoring improved usage and maintenance of the developed facilities. The project has significantly benefited the students by providing improved sanitation facilities at schools and changing their health as well as hygiene practices.

HEALTHCARE

PROJECT HIGHLIGHTS

- 10 Mobile Health Vans (MHV) providing basic medical services to ~2.4 lakh community members annually (~0.94 lakh in Gujarat and ~1.46 lakh in Rajasthan). A total of 244 villages are covered across Rajasthan and Gujarat on a weekly basis.
- Three medical specialists have been appointed to support the Barmer District Hospital and they have conducted ~10,736 OPDs, ~786 surgeries and ~60 institutional deliveries quarterly.
- Regular awareness and IEC sessions to sensitize women and adolescent girls about menstrual hygiene and reproductive health.

- Swastha Pathshala Abhiyan focuses on behavioral modules on health and hygiene in 54 government schools impacting ~14,000 students in Barmer.
- Two First Referral Units (FRUs) which are functionalized in Barmer cater to ~24,000 patients annually.
- Partner Agencies: Wockhardt Foundation, Dhara Sansthan, Helpage India, CHETNA, IPE Global, Department of Medical Health & Family Welfare, Government of Rajasthan and Govt. of Andhra Pradesh

populated and lack optimum methods of transportation and mobility.

A third-party study conducted in the year 2017 reported that ~95 per cent of the population residing around the Cairn operational areas are effectively covered under this initiative and have seen an improvement in basic health quotient with affordable and doorstep services.

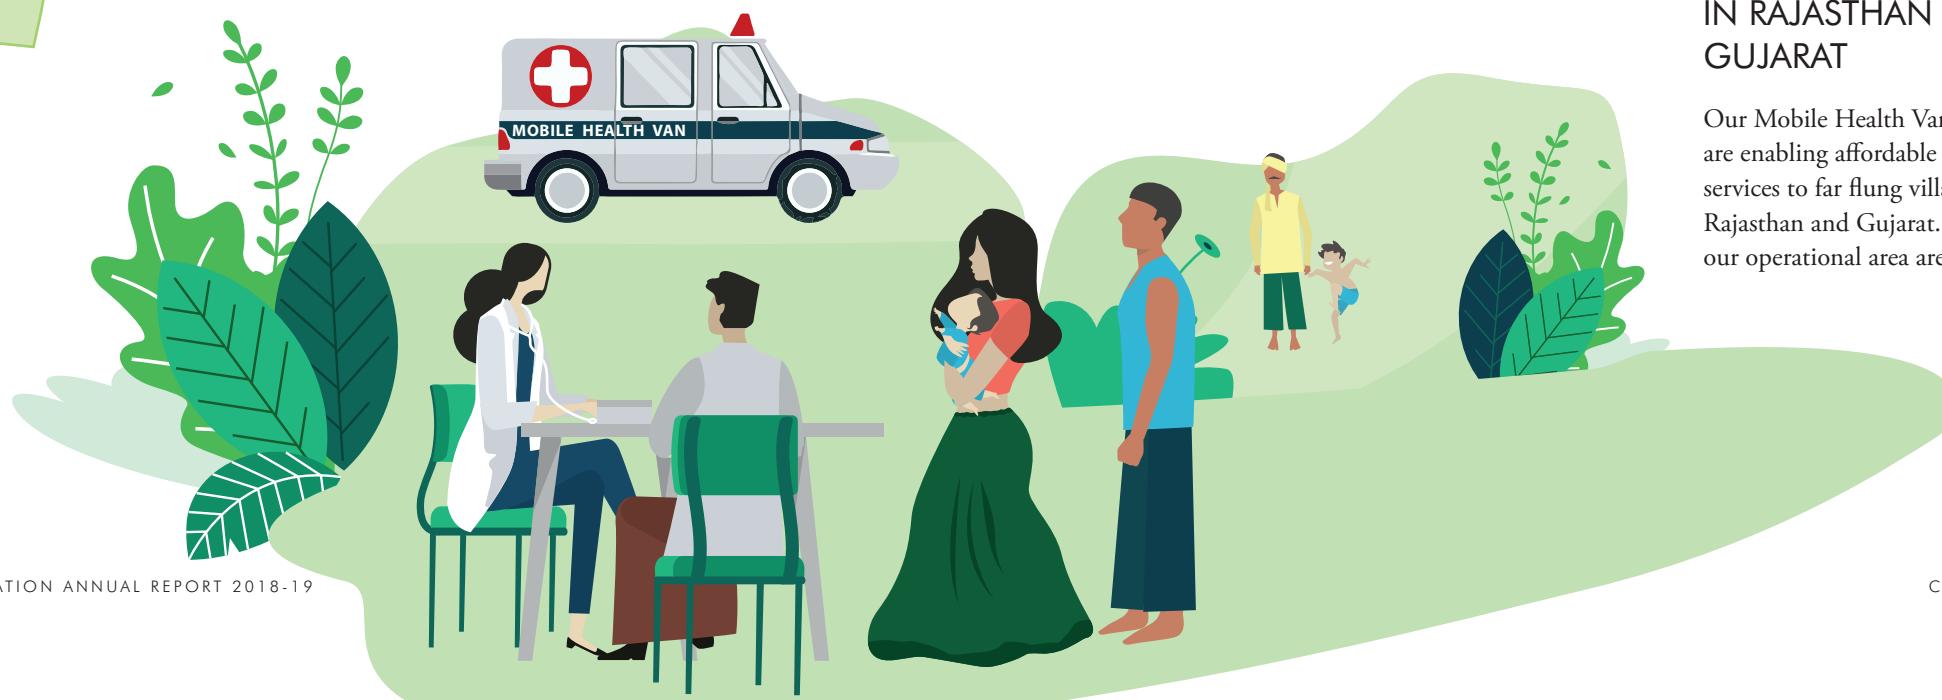

Regular awareness sessions and multi-specialty health camps are conducted for the masses. Services of Gynecologist, Orthopedic, Pediatric, ENT specialist, Dentist, and General Practitioner are provided under these health camps.

SWASTHYA SAARTHI MOBILE HEALTH VAN IN RAJASTHAN & GUJARAT

Our Mobile Health Vans (MHVs) are enabling affordable medical services to far flung villages in Rajasthan and Gujarat. Villages in our operational area are sparsely

SWASTHYA NIDAN SUPPORT TO BARMER DISTRICT HOSPITAL, RAJASTHAN

In order to better the medical facilities available in the district hospital, two major interventions have been initiated by the company – first: ‘Green Barmer, Clean Barmer’ campaign focusing on creating awareness among citizens of Barmer on health and

hygiene; and second: strengthening the health services offered at government district hospital by providing three medical specialists. These specialists include a female gynaecologist, an ENT specialist and a general surgeon.

Besides, technologically advanced instruments like endovision system, CO2 insulator, medical LED light source, proctoscope, Artery Forceps, Intestinal Clamp, anal retractor, etc. are also provided to the hospital for better diagnosis and treatment.

Based on a survey on patient satisfaction conducted by Directorate Medical & Health, Government of Rajasthan in May 2019, our health care interventions have resulted in the Barmer District Hospital being ranked #1 amongst all district hospitals in Rajasthan.

A student health connects programme called 'Swastha Pathshala Abhiyan' has been introduced in 54 government

schools in Barmer, impacting ~14,000 students. This programme focuses on behavioral modules on health and hygiene. Health camps are conducted regularly, and parents are also appraised about the medical needs of their children. This serves as a comprehensive guiding tool to improve the health of students and parents.

PROJECT NAVKIRAN

With the aim of transforming public health systems and achieving greater adoption of safe, timely and effective practices of handling pregnancy and newborn complications, Cairn, in partnership with National Health Mission and Department of Medical, Health and Family Welfare (Rajasthan), has initiated an intervention to operationalise all dysfunctional First Referral Units (FRUs) in the District of Barmer. These interventions will help in reducing preventable maternal and child death's as well as address emergency accident cases to make significant

progress towards achievement of Sustainable Development Goals (SDGs) for the state of Rajasthan.

SUPPORT TO PRIMARY HEALTH CENTRE IN ANDHRA PRADESH

In addition, in collaboration with Department of Health & Medical Office, East Godavari District, a Primary Health Centre (PHC) in Surasaniyanam village has been constructed and is being supported by 11 medical professionals to attend to emergency cases and provide immediate first aid. The PHC was inaugurated by Dy. Chief Minister and Home Minister of Andhra Pradesh, Mr. N Chinnarajappa in July 2018. The PHC caters to a population of ~ 23,000 across five villages consisting of S.Yanam, Challapalli, N.Kothapalli, Gopavaram and Saripalli. One fully furnished ambulance has also been provided to the PHC for transporting critical cases to the hospital. The PHC is functional 24x7.

~95 per cent of the population residing around the Cairn operational areas are effectively covered under this initiative and have seen an improvement in basic health quotient with affordable and doorstep services.

AGRICULTURE & ANIMAL HUSBANDRY

PROJECT HIGHLIGHTS

- ~1110 Wadis established by planting around 80,000 fruit saplings with 70 per cent survival rate as part of the Wadi project across three blocks of Barmer district viz-a-viz Barmer, Baitu and Gudamalani
- Total ~100,000 saplings planted till date, including fruit and forestry saplings
- More than 15 lacs cubic meter of water harvested every year through renovation of 12 community ponds (Nadis), construction of 681 Khadins and roof top water harvesting in 85 rural schools
- Increase in biodiversity in the region
- Over 16 migratory bird species seen to frequent pond sites
- Significant rise in the population of fish, snakes, insects, algae, fungi, etc.

- ~6000 ton of fertile soil recycled
- Increase in number of grass species and medicinal plants like

shankhpushpi (*evolvulus arvensis*), desi viagra (*corchorus depressus*), dhaman (*cenchrus ciliaris*) and sewan (*leisure's sindicus*.)

- Dairy farmers generated a revenue of ~INR 62 crore, witnessing a production of ~2.29 crore litres of milk from 36 dairy cooperatives across 32 villages. The dairy cooperatives are procuring close to 15500 litres of milk on a daily basis.

KEY PARTNERS

- Techno Serve (September 2013 - September 2015): Project Barmer Unnati (Agriculture/NRM)
- GRAVIS (May 2015 - May 2016): Project Barmer Unnati (Agriculture/NRM)
- BAIF (May 2016 –

present): Project Barmer Unnati (Agriculture/NRM)

- Society for Upliftment of Rural Economy (2007 – 2018): Dairy Development Project
- Central Arid Zone Research Institute (2017 – present): Technical support to agriculture and dairy
- Krishi Vigyan Kendra (2007) Technical support to agriculture and dairy
- Mukhya Mantri Jal Swavlamban Abhiyan (2018): Zila Parishad, Barmer

STAKEHOLDERS

- Central Arid Zone Research Institute (CAZRI Jodhpur)
- Krishi Vigyan Kendra (KVK Barmer)
- Mukhya Mantri Jal Swablamban Yojana (Zila Parishad-Barmer)
- Jila Dughda Utpadak Sangh – SARAS - Barmer and Jalore

BENEFICIARIES

- Around 11260 farmers of Barmer, Baytu, Gudamalani and Sanchoe block for agriculture/ NRM and dairy project

YEAR OF INCEPTION OF PROGRAMS

- Dairy Program started in 2008
- Agriculture/NRM project started in September 2013
- MJSA started in 2016
- Watershed started with National Bank For Agriculture & Rural Development (NABARD) in 2016

BARMER UNNATI AGRICULTURE & NRM PROJECT IN RAJASTHAN

Barmer Unnati program is aimed at increasing the income of farming community through productivity enhancement of agriculture and livestock. ~1,110 horticulture units (Wadi) have been established, 681 Khadins constructed and over ~100,000 saplings have been planted. Our efforts have resulted in an increase in the cultivable area in the remote desert district of Barmer as well as created direct linkages between farmers and procurement agencies. Renovation of Nadi structures (village ponds), establishment of silvi-pasture and agri-horticulture units have not only benefited farmers through an increase in revenue, but also helped in managing the sustainability of natural resources (soil, water, and pasture).

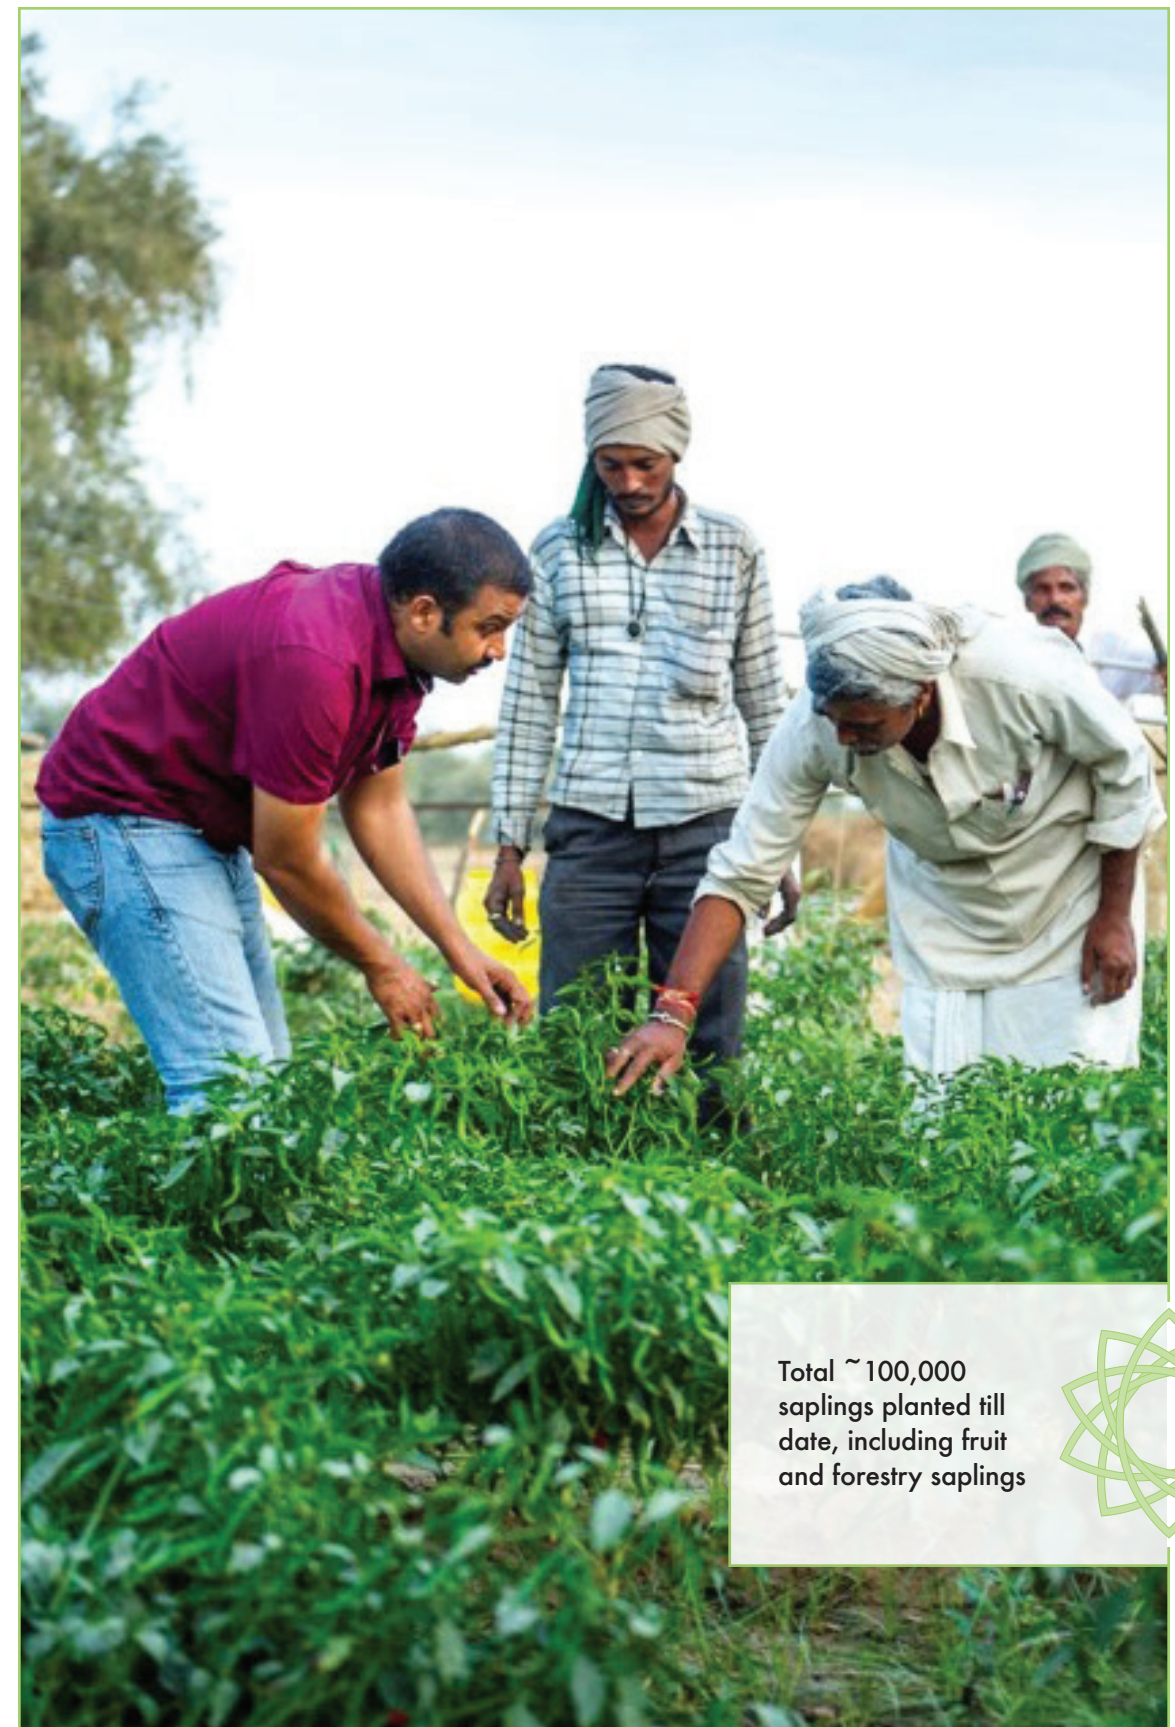

In order to address the shortage of skills in agriculture and allied occupations in Barmer, the project helped form a cadre of young entrepreneurial farmers. The first batch of Cairn Agri-fellows, who graduated in 2015, started their own enterprises including dairying, goat farming, and started working as field extension workers. They were provided basic training on agriculture and animal husbandry at Institute of Agri Business Management (IABM), Bikaner and specialized training on dairy farming, goat farming, horticulture and vegetable farming at different specialized institutes like NDRI Karnal, Central Institute of Arid Horticulture (CIAH) Bikaner etc.

Cairn has associated with Rajasthan government's flagship watershed programme – "Mukhyamantri Jal Swavlamban Abhiyan (MJSA)", a campaign launched by Government of Rajasthan with a vision to make villages self-sufficient in water through effective implementation of water harvesting and conservation activities in rural areas using a holistic approach.

MARU SAGAR DAIRY DEVELOPMENT PROJECT IN RAJASTHAN

Cairn's Dairy Development Program has enhanced livelihood generation possibilities and provided an avenue for convergence of various stakeholders for the development of dairy and related activities. Almost a decade after its inception, the revenue generated for the dairy farmers has crossed ~ INR 62 crore witnessing a production of over 2.29 crore litres of milk from across 32 villages. The dairy cooperatives are producing close to ~15,500 litres of milk on a daily basis. 36 milk cooperatives have been registered, consisting of ~3689 dairy members. 20 women self-help groups with 259 female members have been formed for women linked with dairy initiatives.

In addition, the rainwater harvesting project at 85 government schools in Barmer provides potable water throughout the year to students and school staff thus harvesting ~5000 cubic metre water.

Total ~100,000 saplings planted till date, including fruit and forestry saplings

ENVIRONMENT & SUSTAINABILITY

ZERO HARM, ZERO WASTE AND ZERO DISCHARGE

“We are committed to Zero Harm, Zero Waste and Zero Discharge. We ensure that our security, intelligence and vigilance are well integrated by leveraging technology.”

- In Barmer, 100 Adarsh schools have been electrified impacting ~ 12,000 students
- Nandghar Project – All 50 Nandghars in Barmer are powered by solar to mitigate the lack of regular power supply.
- Provision of ~500 solar home systems in villages of Barmer under project “Ghar ki Roshni”
- In partnership with Municipal Corporation of Barmer, 30,000 recyclable bags have recently been distributed in community as a step towards minimising the use of plastic bags.
- 100 solar street lights installed in three villages in Ravva, Andhra Pradesh.
- Partner Agency: Sun Shakti Solar System, Viba Press and Municipal Corporation – Barmer.

MARU UDAY SOLAR PROJECT IN RAJASTHAN

Jeevan Amrit Project - Usage of solar powered RO water dispensing units to mitigate the issue of lack of power in rural areas in Barmer.

Meghwalon Ki Dhani, a Barmer village with a population of ~600 people, was provided with a 27 KW mini grid solar power plant to ensure household electricity. This has been operating smoothly and was officially handed over to the community in January 2016. The operating model demonstrates ownership and self-reliance of the community with all operations and maintenance expenses being borne by the community. The plant operation is managed by a community member trained at Cairn Enterprise Centre. The operator has also established his own ‘flour grinding mill’ operating on solar power, which is an example of rural entrepreneurship.

In addition, 500 Solar Home Systems (SHS) were provided in various villages. The project has brought access to power to those who hitherto lacked this, thus substantially impacting their quality of life.

To address the issue of electricity in rural schools, Cairn initiated a solar electrification project in 100 Adarsh schools impacting ~ 12,000 students. The project is expected to lead to several benefits including provision of increased infrastructural facilities in rural Barmer schools furthering a better academic environment and reducing absenteeism among students.

In partnership with the municipal corporation, 30,000 recyclable bags were distributed in community as a step towards minimising the use of plastic bags in Barmer, Rajasthan.

SOLAR STREET LIGHT PROJECT IN ANDHRA PRADESH

In Andhra Pradesh, 100 solar street lights of capacity: 90W SPV Module, 18W LED Light are installed in three villages viz-a-viz S'yanam, Gachakayalapora and Chirrayanam. These solar lights are in public places like schools, panchayat office, Anganwadi centers, RWS water tank area, RO Plants, beach road, junctions, etc.

SKILL DEVELOPMENT

It is very important to learn and accumulate new skills in order to stay ahead of the curves. Our excellence and enterprise skill development centers facilitate vocational courses to the unemployed youth.

PROJECT HIGHLIGHTS

CAIRN ENTERPRISE CENTRE, BARMER

- 360° development-oriented approach for skill training with holistic training covering vocational skills as well as domain skills, soft skills, English and digital literacy.
- Over 13,000 youth impacted till date through skill development centres at Barmer and Jalore, resulting in a record placement of 80 per cent.
- Partner Agency – IL&FS Skills Development Corporation.

CAIRN CENTRE OF EXCELLENCE, JODHPUR

- Cairn has established the ~USD 10 million Cairn Centre of Excellence (CCOE) at Jodhpur which is spread over ~12 acres
- Situated in the hub of institutions such as Indian Institute of Technology (IIT) Jodhpur, National Institute of Fashion Technology (NIFT), Ayurveda University, Agriculture University, National Law College, Footwear Design & Development Institute (FDDI)
- Best-in-class equipment sourced from Germany, Finland etc.
- MoU signed with Rajasthan Skill & Livelihood Development Corporation (RSLDC) in presence of Chief Minister in 2015 and again in 2018 for state funded courses.
- Received provisional affiliation for skill development courses from Rajasthan ILD Skill University (RISU).

- Previous collaborations with IIIT -Kota, MNIT -Jaipur, (The Indo-Tibetan Border Police) ITBP Jodhpur, Ministry of New & Renewable Energy etc.
- Trained over 1200 youths with placement in reputed industries like Suzlon, Vodafone, Amazon, PepperTap, Samsung, Minda, Hero Group, SBI, BLG Group, etc.
- Partner Agency – Nettur Technical Training Foundation (NTTF)

CAIRN ENTERPRISE CENTRE, BARMER, RAJASTHAN

Cairn Enterprise Centre (CEC) is a vocational training center established in Barmer in 2007 with support from Government of Rajasthan and International Finance Corporation (IFC) to develop the capacities for the local youth.

Cairn has gradually expanded this program by setting up mobile

spoke centers at village level with an objective of reaching out to beneficiaries at the doorstep in Barmer district. A new center at Sanchore was also set up to cover the youth of Jalore district and link them to employment opportunities. Since its inception, ~13,000 students have been trained in various vocational and enterprise development skills at the Barmer, Jodhpur and Sanchore of which 80 per cent of the trainees are engaged in employment or have become entrepreneurs. The vocational courses offered include Electrical, Basic Computers, Mobile Repairing, Masonry, Submersible pump repairs and motor rewinding.

Trainees undergo a two month long intensive training in the domain knowledge of different courses. In addition to imparting domain knowledge, the trainees are also taught soft skills, English

and Digital literacy during the course tenure. The focus is to provide learning to the trainees with hands on experience.

After completion of the two-month classroom training, the trainees undergo a month long On Job Training (OJT) in a company in the field of their respective domain. During the OJT, the trainees receive an opportunity to interact with other corporate professionals and are exposed to the working environment which prepares them for the career ahead. After the successful completion of the OJT, the trainees are provided with employment opportunity.

CAIRN CENTRE OF EXCELLENCE, JODHPUR

Cairn Centre of Excellence (CCoE) is a premier state-of-

the-art vocational training centre that offers world-class vocational training in advanced courses on IT, automobile, welding, renewable energy (solar and wind), and retail in a residential campus at Jodhpur spread over 12 acres. Equipment for this training centre has been sourced from Germany and Finland. The training and certification were initially provided by German training provider, TUV Rheinland and now being provided by Nettur Technical Training Foundation (NTTF), an agency with over 60 years of experience in skill training and development.

This solar powered centre has 200-bed residential block for the trainees, facilities for recreational activities and harvests rainwater to recharge ground water table.

CCoE received provisional affiliation from Rajasthan ILD Skill University (RISU) for

running state funded mid-term, long term and advanced diploma courses.

The initial MoU with Rajasthan Skills & Livelihood Development Corporation (RSLDC) was signed in the presence of the Rajasthan Chief Minister in 2015 for a period of three years. A Tripartite MoU between RSLDC, NTTF and Cairn for another period of three years was signed on August 2, 2018. Previously collaborations include Indian Institute of Information and Technology (IIIT) - Kota, Malviya National Institute of Technology (MNIT) - Jaipur, Indo Tibet Border Police (ITBP). Support and sponsorship to trainees was provided through partnerships with RSLDC, Ministry of New and Renewable Energy (MNRE) and Department of Tribal Affairs in the past.

GUJARAT

In Gujarat, regular trainings are conducted for women to enhance their skills and employability through trainings on tailoring, beauty parlor, Dori Zula work along with English speaking and computer training benefitting

~247 youth in five villages (Khijadiya, Dhrol, Khengarka, Vijarakhi and mansard) in Jamnagar district.

Partner Agency: Jan Kalyan Welfare Society (JKWS) and Forum for Integrated Development & Research (FIDR), Centre for Education Developmental Research and Action (CEDRA)

TAMANA, NEW DELHI

Cairn supports skill development training for differently-abled children and young adults through Tamana NGO. Tamana is a non-profit organization which has been working relentlessly in the field of rehabilitation of the differently-abled for the last three decades. Since its inception, Tamana has been providing rehabilitative services to children with autism, mental and multiple disabilities. Children with special needs are imparted with holistic developmental education which includes special education, life skills training, therapeutic interventions and vocational training, to effect optimum adult rehabilitation. Young adults

at Tamana are equipped with skills to adapt appropriately to the needs of adulthood and thereby, function independently. The program aims at creating infrastructure, which ensures a smooth graduation from school to the outside world, for the young adult and the family. It also aims at ensuring training and placements of the young adults in various vocations and organisations. Cairn supports the initiative through payment of expenses for special educators as well as upgradation of infrastructure.

We have also supported renovation of the physiotherapy unit at the Tamana Nai Disha Centre in a bid to improve loco-motor skills and create accessible health facilities for young people with special needs. While Cairn is supporting 20 differently abled children and young adults for skill training, the physiotherapy unit is useful for all 125 students of the centre.

In FY 2019-20, Cairn will continue with the project with an additional support of school bus especially designed for differently abled children.

Partner Agency: Tamana NGO

CHILDREN'S WELL BEING

PROJECT NANDGHAR IN RAJASTHAN

Nandghars are a network of modern anganwadis that provide an integrated approach to early child welfare and skill development for women.

PROJECT HIGHLIGHTS

- Committed to the Prime Minister's vision of eradicating child malnutrition, providing education, healthcare to children while empowering women with skill development through support towards programmes such as Swachh Bharat, Beti Bachao Beti Padhao and Startup India etc.
- Centres equipped with e-learning tools, televisions, solar panels, safe drinking water and clean toilets
- Flagship Vedanta programme piloted in villages of Cairn's operational areas in Barmer District, Rajasthan through 50 centres
- Partner Agency: CHETNA

Project Nandghar is in line with the Hon'ble Prime Minister's vision of Swachh Bharat, women skill development, digital literacy and improving maternal and child health across the country. Vedanta, in partnership with Ministry of Women and Child

Development, is constructing 4,000 model anganwadis called Nandghars across 11 states of India, including Andhra Pradesh, Assam, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha, Rajasthan, Telangana and Uttar Pradesh. Currently, the centres have been established and are operational in Uttar Pradesh, Rajasthan and Madhya Pradesh.

Nandghars are constructed with state-of-the-art Schnell Technology, which makes it possible for the overall infrastructure to be constructed within 45 days. The structure is earthquake resistant as well as fire and damp proof. In order to enhance interactive learning, Nandghars are equipped with BaLA designs that use the building as a learning aid. The centres are equipped with e-display units for delivering interactive learning for holistic development. Each cluster of Nandghar is connected by a mobile health van to facilitate and provide primary healthcare to children, pregnant women and lactating mothers.

50 Nandghars have been constructed and are operational in Barmer district (Rajasthan) benefitting ~1000 children

and ~500 women in providing supplementary nutrition, pre-schooling, and health services to pregnant and lactating mothers. In addition, skill training has been provided to ~1500 women. A supplementary nutritional feed (pre-packed balanced feed) has been supplied in all Nandghars which has significantly addressed the issue of malnutrition in children.

The program has created a significant impact by providing:

- Interactive learning facilities through e-learning tutorials i.e. building the early stage learning in children in the age group of three to six years
- Primary health care services
- Nutritious food /Pre-packed foods
- Women empowerment through skill development
- Access to clean water and toilets
- Solar electricity through solar panels

CHETNA, a not-for-profit organization with expertise in women and child interventions has been identified for Operation and Maintenance of 50 Nandghar in Barmer and implementing women empowerment activities through economic activities.

EDUCATION

PROJECT HIGHLIGHTS

- 233 schools covered (185 schools in Rajasthan and 48 schools in Gujarat)
- ~24,000 students benefit through solar electrification and mobile science van initiatives
- 85 schools have been provided roof top water harvesting structures saving more than 5000 cubic metre rain water, benefitting ~17000 students in Barmer.
- Supported for setting up 200 Mini Libraries in Andhra Pradesh -150 in Tribal area and 50 in Uppalaguptam Mandal.
- Partner Agency: Yuva Unstoppable, Electra Accumulators, Sun Shakti Solar

System, Agastya International, and Rajasthan Renewable Energy Corporation Ltd.

Access to education develops confidence and helps in building the personality of an individual. School education plays a great role in everyone's life and Cairn Foundation, make sure this basic need is fulfilled.

In Rajasthan, Cairn has provided infrastructural support in schools based on the recommendations in the baseline study conducted in 2015 i.e. develop facilities required to maintain health and hygiene in schools. Following are some of the infrastructural interventions undertaken in schools in Barmer district, Rajasthan:

- Solar Electrification** – To address the issue of electricity in rural schools, Cairn has initiated a solar electrification project in 100 un-electrified Adarsh schools in Barmer, targeting to benefit ~12,000 students.
- Rainwater Harvesting** – In addition to our drinking water

initiative providing safe drinking water to rural communities, Cairn has developed roof water harvesting structures to harvest rain water. ~85 roof top water harvesting structures have been constructed to harvest ~5000 cubic meter rain water every year.

c) Mobile Science Van – Cairn supported two mobile science vans covering 48 villages across Viramgam and Bhogat in Gujarat in partnership with Agastya International Foundation. This educational intervention bridges the accessibility gap by spreading innovative curriculum to students and teachers based in rural settings. The program helps develop the acumen and interest for science and math among young students including the opportunity to explore and work on various live science projects and experiments.

In FY 2020, Cairn started the process of rolling out an education initiative for improving access to and quality of education in 60 government schools in Barmer. Partner on-boarding is underway.

SPORTS & CULTURE

PROJECT DIVYANG

Cairn Oil & Gas has been promoting sports for a very long time from supporting Indian National Hockey team in 2012 to supporting our Para athletes from 2016. The company is supporting three Indian National Para-athletes from Rajasthan - Sundar Singh Gurjar, Shatabdi Avasthi and Sandeep Singh Mann under its "Project Divyang" in partnership with Paralympic Committee of India (PCI).

PCI is the sole authorized organization recognized by International Paralympics Committee and Government of India for promotion and development of para sports in India. The support from Cairn to the selected para athletes includes:

- Sports kit and equipment
- Specialized training and coaching
- Awareness, inspiration and motivation through workshops, conferences, talks, lectures
- Diet and nutrition
- Physiotherapy and injury management
- Exposure to domestic and International competitions
- Incentives for exceptional performances
- Athlete grants

Partner Agency – Paralympics Committee of India (PCI)

Some of the major achievements of the para athletes supported by Cairn include:

- **Mr. Sundar Singh Gurjar**
Category –Javelin, Discus throw and Shot Put

Since his association with Cairn, Sundar has won 14 gold medals in various international events including the sole gold medal for India in World Para-Athletics Championship, London in 2017. Sundar Singh Gurjar won silver medal in Javelin Throw and Bronze medal in discus throw in Asian Para Games 2018 held in Jakarta, Indonesia.

- **Ms. Shatabdi Avasthi**
Category Shot Put, Javelin and Discus Throw.

Post her association with Cairn, Shatabdi has won three medals in various international level events including a Silver in Fazza Grand Prix, Dubai in 2017 and a bronze

in World Grand Prix held in Berlin in June 2018.

- **Mr. Sandeep Singh Maan**
Category -Athletics.

An Arjuna Awardee, Sandeep has won 10 gold and one silver medal in various reputed international events since his association with Cairn. He won bronze medal in 400 m in Asian Para Games 2018 held in Jakarta, Indonesia.

Till FY 2019, the para athletes have won 24 Gold, 1 Silver and 3 Bronze in internationally recognized events and secured One World Record in current FY 2018-19. Hon'ble Prime Minister of India, Mr. Narendra Modi felicitated all the winners and individually complimented each of them on various social media platforms in 2018.

In FY 2020, Cairn initiated the process to increase the support towards this project from three para athletes to ten para athletes in FY 2020.

HALF MARATHON IN RAJASTHAN

Cairn also promotes events that draw huge traction to generate awareness about sports and health care and social cause in public interest.

- Cairn has associated as Title Partner of Cairn Pink City Half Marathon 3rd Edition in Dec 2018 in partnership with GT Health Care.
- Professional and amateur runners and sports enthusiasts across the globe participate in

this marathon including active participation from Vedanta - Cairn employees. The pre event activities and the main event receives good social media coverage including print and digital media i.e. FB/ Twitter/video bytes etc.

- The event not only promotes health and fitness among the youth but also gives the platform to spread social awareness on importance campaign like Vedanta’s flagship program -Nandghar and Cairn’s high impact program –Safe Drinking Water (Jeevan Amrit) were showcased during the event in 2018 focused on “Swatch

Bharat Abhiyan”, “Beti Bachao Beti Padhao” social messages. The programme also supported underprivileged children with one meal per registration through Akshaya Patra Foundation.

- The Marathon has received the prestigious membership of AIMS – Association of International Marathon and Distance Races, providing international reach to worldwide running community.
- In FY 2018-19, ~8800 runners had participated in the marathon across three categories.

“The para athletes have won 24 Gold, 1 Silver and 3 Bronze in internationally recognized events and secured One World Record in FY 2018-19”

COMMUNITY INFRASTRUCTURE DEVELOPMENT

PROJECT HIGHLIGHTS

Development of following community places in Barmer –

- Saras Parlor public park
- Plantation and upgradation of Collectorate Circle
- Green belt development along Border Security Force (BSF) Road
- Upgradation of Mallinath Circle
- Development of Slope Garden
- Renovation of Under flyover public park
- Renovation of Pavilions in Balotra Stadium
- Partner Agency: Anil Construction

BARMER SMART CITY PROJECT IN RAJASTHAN

Cairn Oil & Gas has undertaken these infrastructure development projects to bring Barmer from the state of backwardness to mainstream in tandem with the smart city initiative. Many conspicuous places in Barmer district have been upgraded of the

level of a city with objectives –

- To create and upgrade the public infrastructure and make Barmer a preferred place to live.
- To develop amenities for community in Barmer city.

Developed community places in Barmer like Saras Parlor public park, Plantation and upgradation of Collectorate Circle, Green belt development along Border Security Force (BSF) Road, Upgradation of Mallinath Circle, Development of Slope Garden, Renovation of Under flyover public park and Renovation of Pavilions in Balotra Stadium.

Community Infrastructure Project in Andhra Pradesh

However, the community infrastructure development projects in East Godavari are undertaken in Andhra Pradesh through District Administration.

Following activities were undertaken –

- Creation of Sports Infrastructure
- Establishing IT training centres
- Develop community parks

In Ravva, bigger beach culverts

were constructed based on the requests from the fishing community to help them increase the fishing activities leading to an increase in income. It was inaugurated by the Hon'ble DY. Chief Minister and Home Minister Mr. N Chinnarajappa at S.Yanam Beach.

Contribution to CM Flagship Development Program in Andhra Pradesh

In order to promote and support Chief Minister's flagship programme "Smart Village Smart Ward towards Smart AP", a collaborative tie-up was done with Smart AP Foundation to develop Surasaniyanam as Smart village. Cairn has also won "Best Partner" award on January 11, 2019 by Government of Andhra Pradesh (GoAP) for the support in achieving the goals of the Smart Village Smart Ward programme started by Govt. of AP. Supported AIWS National Level NGO for establishing low cost Sanitary Napkin for Girl's Hostel students by Deaf and Dumb students. Disbursement of pension to 240 widows and 64 differently abled people of Surasaniyanam village

EMPLOYEE VOLUNTEER PROGRAM

PASSION TO SERVE

Cairn employees play a pivotal role in the process of ensuring sustainable operations as well as creating an impact on the lives of community members through the practice of taking up volunteering roles under various development initiatives.

Cairn Employees are committed to values of compassion and have continued to contribute their time and skills across to various volunteering initiatives benefitting over thousands of community people.

Cairn Foundation has been facilitating these volunteering activities with Cairn employees.

CASE STUDY - HARIYA DEVI

Mrs. Hariya Devi belongs from village – Bhojariya, which is purely desert zone of District Barmer. There is no way of survive life except to do labour or hard work in another's agriculture land. A big reason for this, the people of Bhojariya are not aware with different schemes of development program & as well as in want of education, the growth rate is very low. In such conditions, one of the villagers named Hariya Devi also living in that village along with her family. No one is literate in her family any how Hariya Devi along with her family was surviving life.

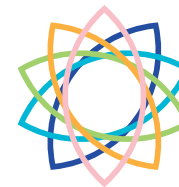

In her family, husband Mr. Prabha ram & one daughter Magi kumari. Due to very poor condition of family they can't imagine about to educate her daughter. Meanwhile one day some people of cairn and IL & FS visited that village, just to aware the people of village Bhojariya about the program of Masonry. Hariya Devi met with this team and asked willing fully can she also participate in the program of mason? The team members provided knowledge in detail to her & advised to enrol herself along with her daughter. Firstly her husband refused but later on he agreed & allowed his wife and daughter to learn the work of mason. There was no toilet in her house but after getting the training, firstly she made a toilet in her own house within 40 days. Now she is working with her daughter in village & nearby the area of that village. In starting she was getting only Rs. 300 to 350 per day for her labour work but now she is getting Rs. 400 to 450 per day. Unless without having the knowledge of work mason the condition of family was very worst but now Hariya says that along with her daughter she earns 15 to 20 days works per month. Now she is very happy with her family. She says that her husband is also very happy & always encourages working helps in the work of family.

Hariya thanks to Cairn and IL & FS for this community oriented approach for villagers, this training will change mark of our life.

Hariya Devi W/o Prabha Ram – Age 35 Years

Mali Kumari D/o Prabha Ram - Age 19 Years

Village – Bhojariya, Block – Chohtan, Barmer (Rajasthan)

CASE STUDY - CYSTADENOMA OF OVARY TUMOR SURGERY

Project Name: Specialist Doctors appointed at Barmer District Hospital

Background

Since 2015, Cairn has been supporting to strengthen the healthcare facilities at the Barmer District Hospital by providing 3 specialized doctors (Gynecologist, ENT, General Surgeon) and maintaining the cleanliness of the hospital via the support of 62 housekeeping and sanitation staff.

Case Study

Ms. Aklo Devi w/o Bhima Ram, a resident of Boka Ramdev Nagar in Barmer district, was in discomfort for the last six months. She was assuming it to be a Gastroenteritis related health issue until she experienced excruciating pain, worsening her health condition. She started to feel bloated, was neither able to eat or lie flat, nor was she able to breathe easily. She reached out to many hospitals but her efforts went in vain.

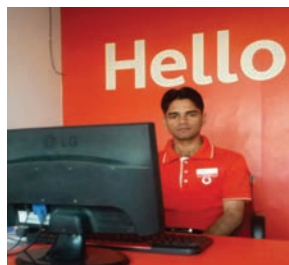

Finally, Aklo Devi consulted Dr. Shraddha Galgali, a Gynecologist at the District Hospital Barmer appointed by Barmer Jan Seva Samiti (BJSS), a partner NGO of Cairn Oil & Gas. After her complete medical evaluation, she was diagnosed with serious Cystadenoma of ovary (Benign tumour that arises from the surface epithelium of the ovary - a slow-growing epithelial tumor. It is a single mass within the ovary, or can occur as multiple masses within a single ovary). It was developed at post-menopausal age causing severe pain.

The remedial measure for this disease was the removal of the tumor. Dr. Shraddha convinced the patient for the complex surgery which she was initially reluctant to go through given the complexity of the case.

As per Dr. Shaddha, the tumor left no room in the abdomen to operate. The most complex part of the surgery was removal of the tumor in one piece. If the tumor ruptured before the surgery, it could have caused severe degree of adhesions, and if ruptured during surgery, it could have changed the severity from 1 to 4. Dr. Shaddha conducted the surgery which lasted for 3 hours and meticulously removed the tumor – the surgery was a success. The tumor weighed over 2 kg and was about 25 cm long. The tumor was a well-differentiated “Cystadenoma of Ovary” and to her knowledge, was the largest tumor removed until now in Barmer by any doctor. The patient was discharged after 1 week of surgery.

CASE STUDY - VISHANU KUMAR

Candidate Details

Name of candidate: Vishanu kumar Pandit

Address: Sikhwalo ki Gali , Nagaur (E) -342902, Rajasthan

Contact number: +91-8562869054

Joining : October 2015

Salary per month: INR 10,000 per month

2nd Employment in CCoE, Jodhpur

Organization Name: Nettur Technical Training Foundation

Address: Opposite IIT new Campus Jodhpur

City/State: Jodhpur

Designation/Position/Job role: Retail Sales Trainer

Joining Date: August 2018

Salary per month: INR 22,000 per month

“No academic stream/ field is less than any other, all that is required is determination and dedication to grab the opportunity that comes his way” is the view of Vishnu, a 23 year old Commerce student who thought that only Science or engineering students get good jobs until he was trained at the Cairn Centre of Excellence (CCOE).

Vishnu belongs to a poor family with three siblings, all of whom do not have a regular job; and depend on farming as the only source of family income. Unlike his father, Vishnu wanted a job in the service sector but didn't know where to start.

As a regular process in CCoE to send SMS to local youth about CCoE training programs, a SMS message was sent to him briefing about an enrollment drive being conducted at CCoE for various vocational courses followed with placement linkage; he knew this was the opportunity he had been waiting for.

On visiting the campus with desperate need of a job, and having heard much about developments in the solar energy sector in Rajasthan, he wished to enroll in the solar course. However, this was a challenge given his educational background.

But as someone has said, if one door is closed, another is opened. Vishnu today is grateful to the counseling team who convinced him that as his inter-personal skills were good, he could do much better in the Retail sector.

The two months of rigorous training, exposure visits, understanding various aspects of retail etc. fostered his interest.

Vishnu was immediately employed with Vodafone Digilink Ltd after completing the course at CCoE with monthly salary of INR 10,000. The job gave him the opportunity to interact with people, learn new skills relevant to marketing while at the same time create a name for himself.

With good proficiency & command over language and more than 3 years of hands on experience in retail sector, Vishnu has been selected by CCoE's training partner –NTTF, as a retail trainer for providing training to youths in retail & sales courses. Currently he earns INR 22,000 per month which helps him to sustain his family.

When we spoke to him about his journey so far and regarding the opportunities created for him through the centre, he said “Life has taken a complete turn from the time I became a part of this initiative of Cairn Oil & Gas –Vedanta Limited and again landing on the same place but on the other side of the table now. I now know the difference between just a job and career. I choose the latter, because the teaching at CCoE has inspired me to never quit. My family has no words to express themselves when I send them money back home and when I recount my two months of training at CCOE”.

FINANCIAL STATEMENT

T R Chadha & Co LLP

Chartered Accountants

**INDEPENDENT AUDITOR'S REPORT**To the members of **Cairn Foundation****Opinion**

We have audited the accompanying financial statements of **Cairn Foundation** ("the Society"), which comprise the Balance Sheet as at 31st March 2019, and the Income and Expenditure Account for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the accompanying aforesaid financial statements give a true and fair view of the financial position of the Society as at March 31, 2019, and its income for the year ended on that date in accordance with the Accounting Standard issued by the Institute of Chartered Accountants of India (ICAI).

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Society in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The management is responsible for preparation and fair presentation of these financial statements that give a true and fair view of the financial position and financial performance in accordance with the accounting principles generally accepted in India, including the Accounting Standards issued by ICAI. The management is also responsible for such internal control as management determine is necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We believe that our audit provides a reasonable basis for our opinion and we report that:

- (i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (ii) In our opinion, proper books of account as required by law have been kept and maintained by the society so far as appears from our examination of the books;
- (iii) The Balance Sheet and the Income and Expenditure Account dealt with by this report are in agreement with the books of accounts; and

SCHEDULES FORMING PART OF THE BALANCE SHEET AND INCOME AND EXPENDITURE ACCOUNT

Schedule C

Notes to Accounts

- Cairn Foundation ('the Society') was incorporated on December 06, 2010 as a society under the Societies Registration Act No. XXI of 1860. The Society is also registered under Section 12A of the Income Tax Act, 1961 w.e.f. financial year 2011-12 onwards. The Society has registered itself with Haryana Registration and Regulation of Societies Act 2012 (Haryana Act No. 1 of 2012). It enjoys the benefits of a charitable society under Sections 11 and 12 of the Income Tax Act, 1961. The Society's objective is to work for the promotion of the socio-economic, environmental and development of the local communities in the Barmer district of Rajasthan, Savoli District of Gujarat and Challapalli Village of Andhra Pradesh.
- The financial statements have been prepared under the historical cost convention on an accrual basis and in accordance with the accounting principles generally accepted in India including the accounting standards prescribed by the Institute of Chartered Accountants of India ('ICAI').
- Significant Accounting Policies**
 - Grants and Donations**
 - Grants and Donations received for which there are no stipulations as to use are recognized in the Income and Expenditure Account as income as and when received.
 - Grants and Donations received whose use is restricted by the contributors, are credited to separate fund accounts when the amount is received and reflected separately in the Balance sheet.
 - Donations received in kind are valued or accounted for in the books of accounts at Rs. Nil.

FINANCIAL STATEMENT

b) Fixed Assets and Depreciation

Fixed Assets are shown at cost less accumulated depreciation. The cost of an asset comprises of purchase price and any directly attributable cost of bringing the asset to working condition for its intended use.

-Depreciation on Fixed Assets has been charged on the written down value method in accordance with the rates prescribed under Appendix-I of Income Tax Rules, 1962. In case of an asset acquired during the previous year and is put to use for a period less than 180 days in that previous year, the deduction as depreciation allowance has been restricted to 50% of the amount of such depreciation.

Following depreciation rates have been used to provide depreciation on fixed assets, as these coincide with the management's estimate of the useful lives of these assets.

Buildings	10%
Furniture & Fixtures	10%
Office Equipment	15%
Computer Software	40%
Plant & Machinery	15%

Sensitivity: Internal (C3)

* The Society has entered into an arrangement with Vedanta Limited whereby Vedanta Limited has provided an assurance to fund the Society for carrying out certain activities. Based on the expenditure incurred as at March 31, 2018, Society has recognised a receivable of Rs. 83,726,225. (March 31, 2018: Rs. 111,792,737.) as at March 31, 2019.

8. Previous year's figures have been re-grouped as necessary to conform to this year's classification.
